Diversity Target Groups - Self Declaration (CANADA)

Please select the group you identify with from the drop-down list. If you do not identify with any of the listed groups, or you do not want to self-declare your eligibility under any of the listed groups, please select "None or prefer to not declare".

Information about self-declared status is used by some employers to reach out specifically to potential candidates in disadvantaged groups. Employers will search for self-declared candidates in order to promote diversity within their organizations. They do that because it creates a more innovative and inclusive workplace, which ultimately leads to better outcomes for all involved.

Opportunities for candidates who have self-declared are marked as "Diversity Target Posting".

Your self-declarations will be visible only when you apply for positions that request applicants from a Diversity Target Group that you identify with (and in each case you will be asked for your consent to disclose). Your self-declarations will not be disclosed to employers when you are applying to jobs that are not marked as Diversity Target Postings. Your self-declarations will be stored only in your account and will not appear on your resume.

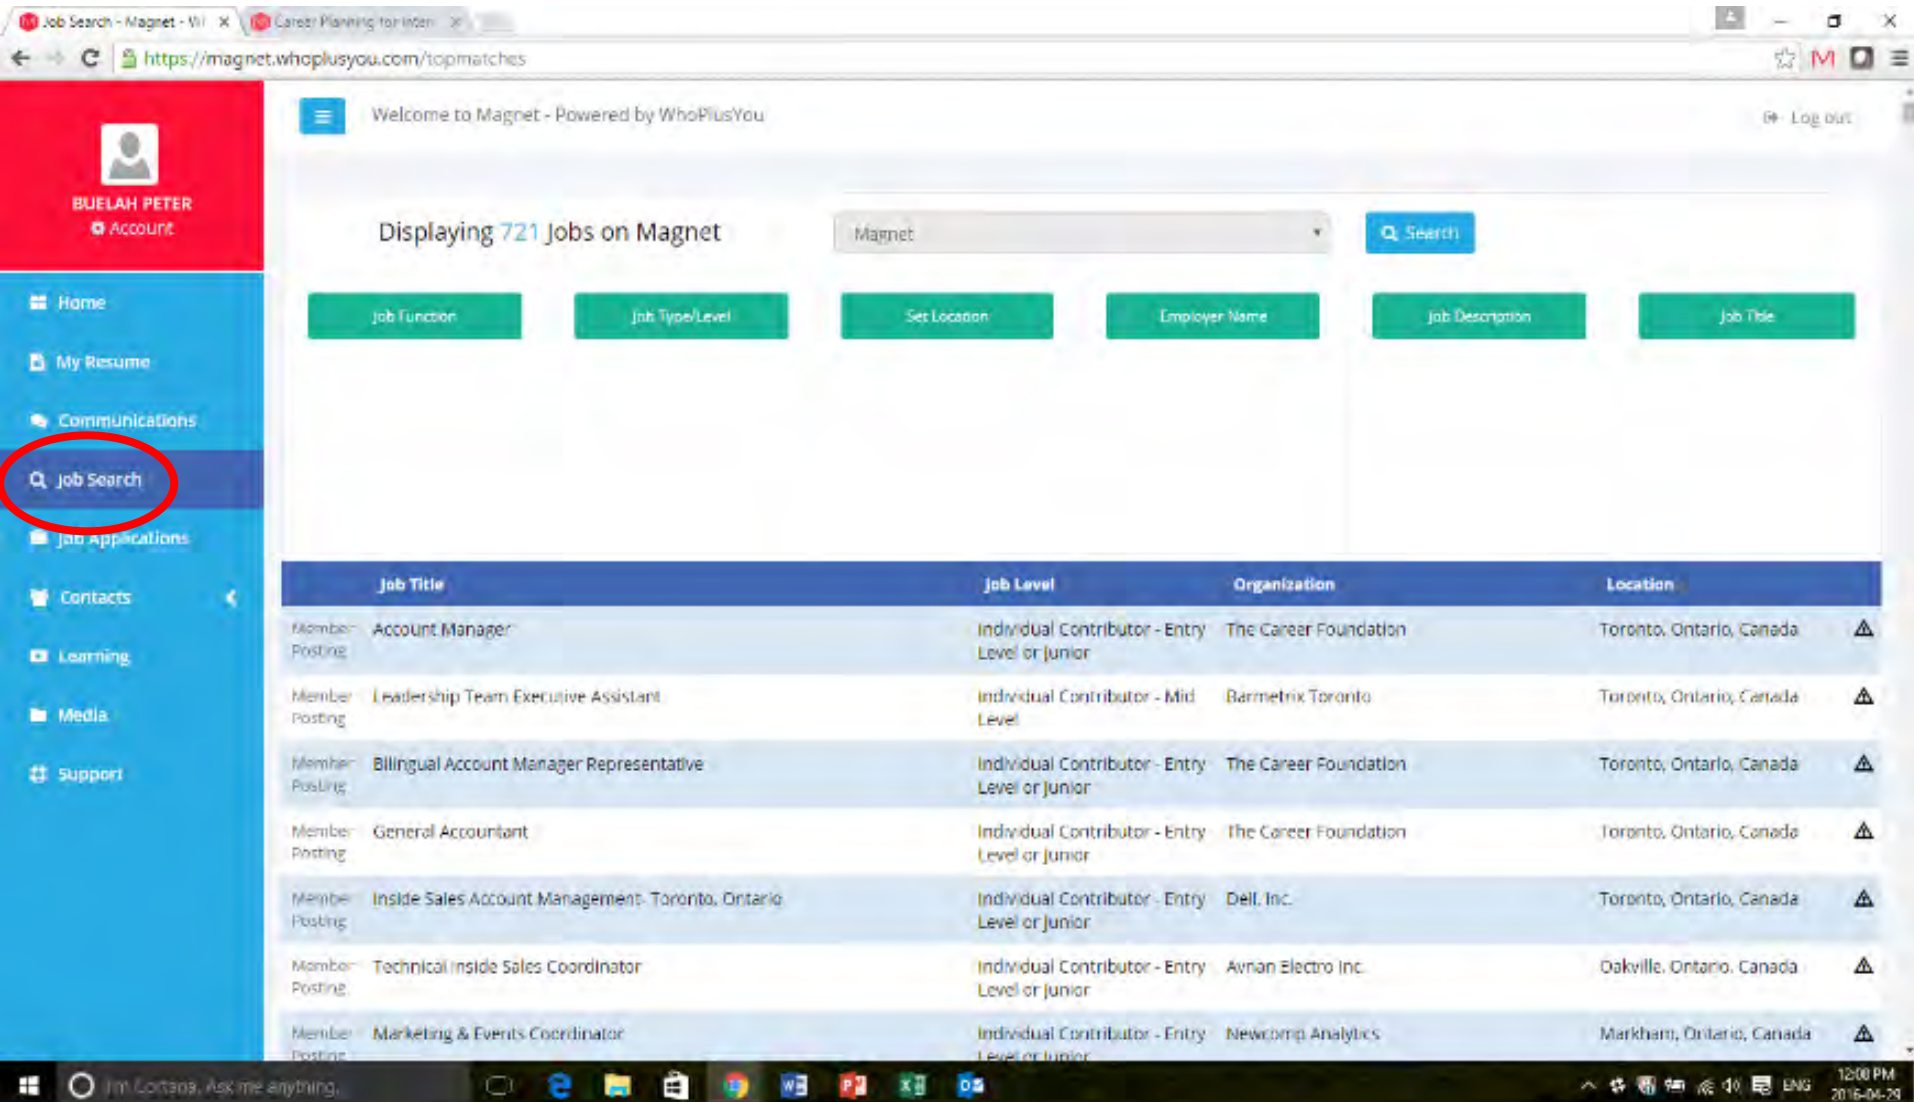

Select Diversity Target Groups -

- ☐ None or prefer to not declare
- ☐ Indigenous peoples
- ☐ LGBTQ+
- ☐ Members of a "visible minority" (racialized group)
- ☐ Persons with disabilities
- ☐ Women
- ☐ Newcomers (within the last 5 years) to Canada
